To: WHOMSOEVER IT MAY CONCERN,

As part of Moovit's Community Programs, during a 2.5 month period (AUGUST - OCTOBER 2017) Aditya Bhartia was instrumental in a community partnership between IETE-TSEC and Moovit for a full day *Mapathon* event to map out essential public transport routes in the city Pune.

Aditya was the contact person between Moovit Global App and his college, IETE-TSEC, throughout the period and oversaw the entire planning and implementation of an extremely successful event with over 40 attendees! Aditya negotiated specific details of the day, dealt with suppliers for the refreshments, materials for the day, oversaw the coverage on IETE-TSEC's social media channels, dealt with IT issues related to the setup, managed the agenda for the day, oversaw training of the mapping platform for the college's organizing committee and much more.

During Aditya's tenure he managed the relationship between Moovit and IETE-TSEC exceptionally well! Aditya was particularly responsive and took each individual task he was assigned in the project and furthermore, made sure others in his team were accountable. When difficulties or complications arose Aditya worked with both teams to coordinate effective solutions in real-time.

As I had the pleasure to work directly with Aditya I can say that he demonstrated a mature capacity to deal with every situation that arose well beyond his years, he was reliable and accountable through every step of the *Mapathon* planning, organizing and the event itself and Moovit is happy to recommend Aditya for any internship, position in a company or organizer of any major event in his future.

Kind regards,

Charlie Levine
