

TSEC E-Cell

Thadomal Shahani Engineering College, Bandra, Mumbai

Entrepreneurship Cell, 2020-2021

Technology Acceleration & The Reading Room Webinar

Date: 30th August, 2020

Time: 4 pm onwards

Number of Participants: 55

Our speaker for the webinar was Abhishek Raghunath, a journalist turned entrepreneur who was a part of the founding team of Forbes India and start-up team of Times Now and Neo Sports. He believed business should be easily available to everyone through books. The session started with technical business innovation and ideas and was followed by an online reading room session where everyone 'read books without reading them'. This free webinar gave the attendees amazing insights of the best business books and strategies!

Startup Stories

Date: 31st October, 2020

Time: 11 am onwards

Number of Participants: 60

Startup Stories is one the signature events of TSEC E-Cell's Embark [2020]. The first speaker was the CEO and Founder of GOZOOP, Mr. Ahmed Naqvi, who is the pioneer of the digital marketing industries in India!

The next speaker was a social entrepreneur and Co-founder and CEO of Monks Bouffe, Mr. Gaurang Motta.

Both the speakers shared their experiences and helped clarify the doubts of many budding entrepreneurs!

Speak Your Stand

Date: 1st November, 2020

Time: 11 am onwards

Number of Participants: 12

Speak Your Stand was a new and unique event introduced in Embark 2020. Debating skills of participants were put to use through this event of ours. Participants debated and voiced their opinions on various topics to win exciting prizes, and also everyone's appreciation! Useful tips and suggestions were provided by the judges.

The judges for the event were Ms. Chumki Biswas, experienced communication skills teacher from TSEC and Mr. Abhishek Raghunath, founder of Bayside Media.

- ▶ Example :- when you have a product say a cloth piece which You list on any online platform ie amazon or flipkart , at the price of 300 , that's not the real money which actually comes in hand
- ▶ Now this 300 rupees include charges as follow

1. Referral Fee :- ₹22.43
2. Fixed Closing Fee:- ₹5.00
3. Shipping Charges:- ₹ 77.88 (Assumed Maximum , But Depends on From which Region order is Received)
4. GST on Product Inclusive 18% :- ₹ 54
5. Packaging Fees:- ₹ 10

Money In hand is :- $300 - 22.43 - 5 - 77.88 - 54 - 10 = ₹ 130.69$

Investing In Stock Market 101

Date: 27th March, 2021

Time: 4 pm onwards

Number of Participants: 130

Investing In Stock Market 101 was a webinar that helped the enthusiastic attendees familiarize themselves to the world of stock markets. The session was led by Mr. Anupam Roongta, a SEBI registered research analyst and has a financial planner certification. He has an experience of 14 years in various fields related to Stock Market and Financial Planning. He also has an experience of 10 years in helping people with investment strategies, mutual funds and stock market. The speaker answered the doubts from the audience too. Overall, it was quite insightful and a grand success.

TSEC E-Cell

Thadomal Shahani Engineering College, Bandra, Mumbai

Entrepreneurship Cell, 2020-2021

Start up stories

Date: 30th September, 2019

Time: 1 pm onwards

Number of Participants: 200+

This seminar was a part of our event Embark 2019, the Entrepreneurial festival of Thadomal Shahani Engineering College. Our speakers for the seminar were Mr. Mihir Malani, Mr. Shravan Agarwal, Ms. Lekha Nirmal who are alumni of our college and also successful entrepreneurs. The purpose of this seminar was to give students an opportunity to interact and indulge in an inspiring panel discussion with some of the most successful alumni of our college who have started their own companies.

Wall Street Seminar

Date: 30th September, 2019

Time: 1 pm onwards

Number of Participants: 70

This seminar was a part of our event Embark 2019, the Entrepreneurial festival of Thadomal Shahani Engineering College. Our speaker for the seminar was Mr. Avadhut Sathe who has 15+ years of experience in trading. The purpose of this seminar was to educate students about building their personal portfolios while they are still in college. This was a certified course to help students familiarize themselves with the financial market.

Entrepreneurship Cell (E-Cell) – TSEC

❖ About “E-Cell – TSEC”:

TSEC Entrepreneurship Cell (E-Cell), since its **inception in January 2017**, has been continuously striving with a sole **mission** in mind-

- *To provide a pathway for the students to develop the entrepreneurs within them.*
- *Bridging the gap between the students and the industry will certainly play a pivotal role in helping us achieve this mission.*

❖ Major Activities of E-Cell:

From Academic Year, 2017-18, under the roof of E-Cell, TSEC, we are conducting majorly following 2 activities –

1. **Project Expo:** *This inter-collegiate exhibition will focus on fostering the art and culture of prototyping the ideas which can take form of supreme next-big startups in the industry. Through this, The students from various departments in TSEC are encouraged to present their innovative technical and business ideas through working models, prototypes, posters, etc.*
2. **TSEC Start-up Stories:** *An initiative taken by the E-CELL TSEC to encourage the aspiring entrepreneurs. This includes, "TSEC Alumni cum successful Entrepreneurs meet and Discussion with students". In This, we invite few of our Alumni (2 to 4 from each department) who are the successful entrepreneurs today and arrange their talk in front of the students where our alumni share about their success stories, important entrepreneurship skills, prerequisites to become an entrepreneur, finance management, current opportunities, etc.*

(Prof. Prasad J. Parulekar)
Teacher Coordinator
E-Cell - Chemical Dept.
(2017-18)

Report on
Entrepreneurship Cell (E-Cell) – TSEC
(Chemical Engg. Department)
(2017-18)

❖ **Project Expo-2017-18:**

- It was held on 14th march, 2018
- Total number of projects displayed (including all departments): 98

❖ **Project Expo-2017-18 (Chemical Department Report):**

- **Total** number of **projects** displayed: **08**
- **Total** number of **students** participated: **32**
- **Few titles** of Projects: “Cooling Tower”, “Audrino based Leaching”, “Velarization of Keratine waste”, etc.
- **Judges** for this event were:
 1. Mr. Jayesh Tekchandaney: TSEC Alumni, 1996 Batch; Director – Unique Mixers & Furnaces Pvt. Ltd.
 2. Mr. Pramod Kulkarni: Manager, Technimont
 3. Mr. Prasad Parulekar: Sr. Assistant Professor, Chemical Engg. Dept., TSEC

Report on
Entrepreneurship Cell (E-Cell) – TSEC
(Chemical Engg. Department)
(2018-19)

❖ **TSEC-Start-up Stories 2018-19 (Chemical Department Report):**

- It was held on 6th September, 2018
- **Total** number of **student** participants: 90 (including, SE, TE and BE)
- **Brief Profile of Speakers and Summary of their speech:**

1. Mr. Jayesh Tekchandaney:

Profile:

- *Alumni, TSEC-Chemical, 1996 batch*
- *Industrial and entrepreneurship experience of 22+ years*
- *Presently, **Director (Technical)**, at “Unique Mixers & Furnaces Pvt”. Lt; **Director (Projects)**, at “Unimix Equipments Pvt. Ltd”.*
- ***Business owner, chartered Engineer, Mixing Expert, Author, Speaker and Life Coach***
- ***Manufacturer and Supplier of Industrial Mixers for liquids, solids and viscous mixing, wide range of industrial process equipments such as Reaction Vessels, Pressure Vessels, Columns, Heat Exchangers, Ball Mills, etc.***

2. Mr. Rohit Shetty:

Profile:

- *Alumni, TSEC-Chemical, 2009 batch*
- ***Founder** of “First Step Publishing and Transdigi”, which provides the platform for talented new writers*
- ***His organization provides, A-Z services of publishing like-***
 - ✓ *Editing*
 - ✓ *Cover designing*
 - ✓ *Book printing*

(Prof. Prasad J. Parulekar)
Teacher Coordinator
E-Cell - Chemical Dept.
(2018-19)

- ✓ *Book distribution*
- ✓ *marketing*
- *Transdigi is a start-up venture for digital marketing which covers a host of services like-*
 - ✓ *Website development*
 - ✓ *Content marketing*
 - ✓ *Community building*
 - ✓ *Video marketing*
 - ✓ *Email marketing*

3. Mr. Sohail Gupta:

Profile:

- *Alumni, TSEC-Chemical, 2010 batch*
- *Director at "Sureflo Techcon Pvt. Ltd.", an ISO certified company*
- *Expertise in automatic filtration systems, advanced separation systems, diffused aeration systems, online robotic cleaning systems*

➤ Summary of Speeches:

- *Talked about various aspects and skills that an entrepreneur must have*
- *Ethical business practices*
- *Finance management for start-up*
- *Managements at various levels of business*
- *Current opportunities*
-

❖ Project Expo-2018-19 :

- It was held on 11th march, 2019
- Total number of projects displayed (including all departments):

❖ Project Expo-2018-19 (Chemical Department Report):

- Total number of projects displayed: 11
- Total number of students participated:
- Judges for this event were:
 1. Mr. Pramod Kulkarni: Manager, Technimont
 2. Mr. Prasad Parulekar: Sr. Assistant Professor, Chemical Engg. Dept., TSEC

Invitation for Project Expo 2018

2 messages

Tue, Mar 13, 2018 at 4:30 PM

Sanober Shaikh <s.sanober1@gmail.com>
To: btolani5.bt@gmail.com

Hello

This is Sanober Shaikh from TSEC. As per our telephonic conversation, I had mentioned that we are having Project Expo in TSEC Bandra on 14th March Wednesday from 10:00 am to 4:00 pm. We need a judge from Industry from Computer/IT background to judge the selected B.E. projects. So requesting you to be a part of this project Expo.

Waiting for a positive reply from you.

Thanks.

Sanober Shaikh
Assistant Professor
Department of IT
TSEC

Tolani, Bharat <bharat.tolani@capgemini.com>
To: "kumkum@saxena.ind.in" <kumkum@saxena.ind.in>, "s.sanober1@gmail.com" <s.sanober1@gmail.com>

Hello Mam,

It was my privilege to be part of Project Expo -2018 on 14th March 2018. Following are highlights about the event I liked the most.

- Live demo of the projects on Automation and IOT. These are actually trending currently in Industry.
- TSEC students have good confidence as always and it was good to see it continue while demonstrating.
- Good to see students coding in Python and working on NoSQL databases.
- Few projects even went ahead and approached Industry and government to understand their concern to work on it.
- Few projects had really very good presentations – (Donor 24*7, Fitbit).
- Few ideas were really good and can be converted into products if worked with same dedication.

Few projects I remember still:

- What a Saver
- Fitbit
- NeuralNetwork used in video animation
- Traffic signaling
- Door lock
- 3D based real estate
- Last but not least – (Nayana) "Inspiring and really different thought"

22/02/19, 4:30

Once again, I would like to Thank all Teachers for inviting me to such a great event like this. It is great to see college motivating students to progress in Industrial direction.

If I keep Project Expo parameters apart, All the projects were **extremely GOOD**. All the hard-work put on studying new technology will definitely be helpful in future.

Thanks and Regards

 **Bharat Tolani**

Dear Deepak Bhagchandani,
Thadomal Shahani Engineering College (TSEC), your beloved Alma mater, is immensely proud of all your exemplary achievements and the glass shattering success stories of your startup. All the budding entrepreneurs on the campus look up to you and you're an inspiration to each one of them. It is indeed our honour and our privilege to invite you as one of the speakers in the Guest Speaker Series of the 'TSEC STARTUP STORIES', an initiative taken by the E-CELL TSEC to encourage the aspiring entrepreneurs. We would be thoroughly delighted and eternally grateful if you could take out some time and come over to the campus to share and enlighten us with your experiences, learnings and your success mantra.

Looking forward to a positive reply and a fruitful association with you.

Thanking you,
Regards
E-CELL TSEC

To: <mihir.malani@gmail.com>

Dear Sir,

It's our privilege to invite you as a speaker for the entrepreneurship talk on 6th September, 2018 to guide and answer our students' queries regarding their future. Your experience and knowledge would provide a stepping stone for their career.

The event schedule is as follows:

The event starts at 1pm and it will last till 3pm.

Also, we are providing lunch prior to the event, so it would be convenient if you reach the new building campus by 12:15 pm.

There are 4 speakers along with you.

So, each speaker can take around 20-25 minutes to talk about:

- Life in TSEC

- Way you thought of a Startup idea and about your mentor

- Your struggles in setting up your startup.

In the end, there will be a 15-20 minutes Q&A session.

We hope that you may give us some of your precious time and guide the students.

Thankyou.

Regards,

Kenil Shah

Thadomal Shahani Engineering College (popularly known as TSEC) in Mumbai is well known for its cool and innovative fests from Triffles and i-Tantra to Lakshya and Newton. What we often fail to acknowledge is the exhaustive list of uber-cool startup ventures by the TSEC alumni which are make life faster, cooler and easier. Keep reading to know more!

The Souled Store, Rohin Samtaney

TSEC alumni Rohin Samtaney along with for other engineer friends vowed to not take up a 9 to 5 job and do something cool instead. The result was The Souled Store. For the ones who have a thing for quirky merchandise, The Souled Store became the ultimate shopping destination for everything from tees to posters, notebooks to phone covers! With a basic idea of being make others happy by being happy, The Souled Store was born and we are surely not complaining!

Website:<http://www.thesouledstore.com/>

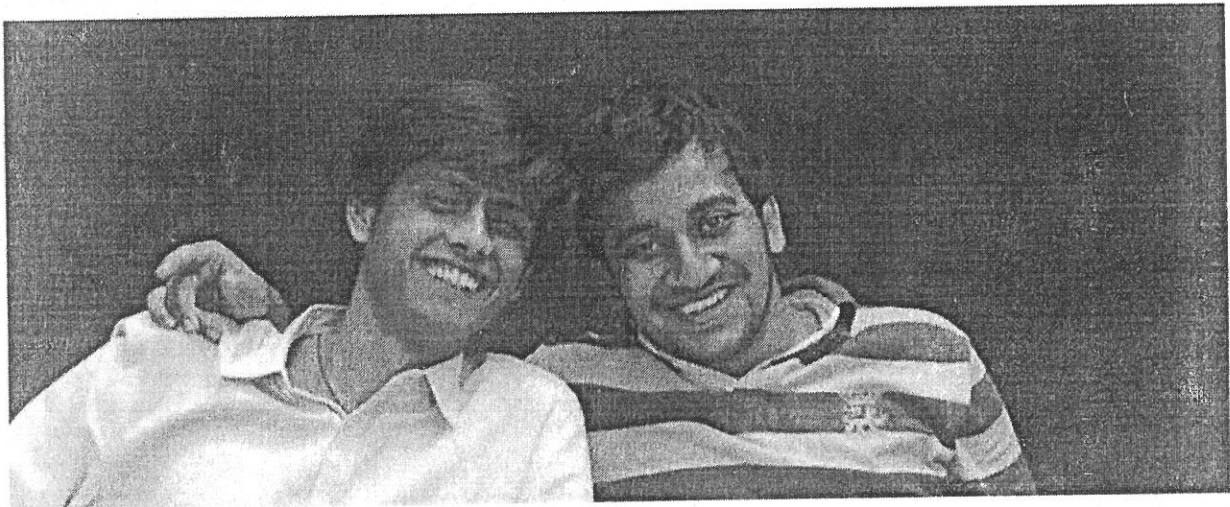

Indian Hippy & Bollywood Movie Posters, Hinesh Jethwani

This TSEC alumni realised his love for Bollywood with his two innovative and quirky startups: Indian Hippy and Bollywood Movie Posters. Hinesh Jethwani revived the vintage art of hand painted Bollywood movie posters by bringing together the last few remaining poster painters to create innovative products and services through Indian Hippy. While Bollywood Movie Posters is an effort to catalog, preserve and sell some of the last few surviving original vintage Bollywood movie posters.

Websites

Indian Hippy: www.hippy.in

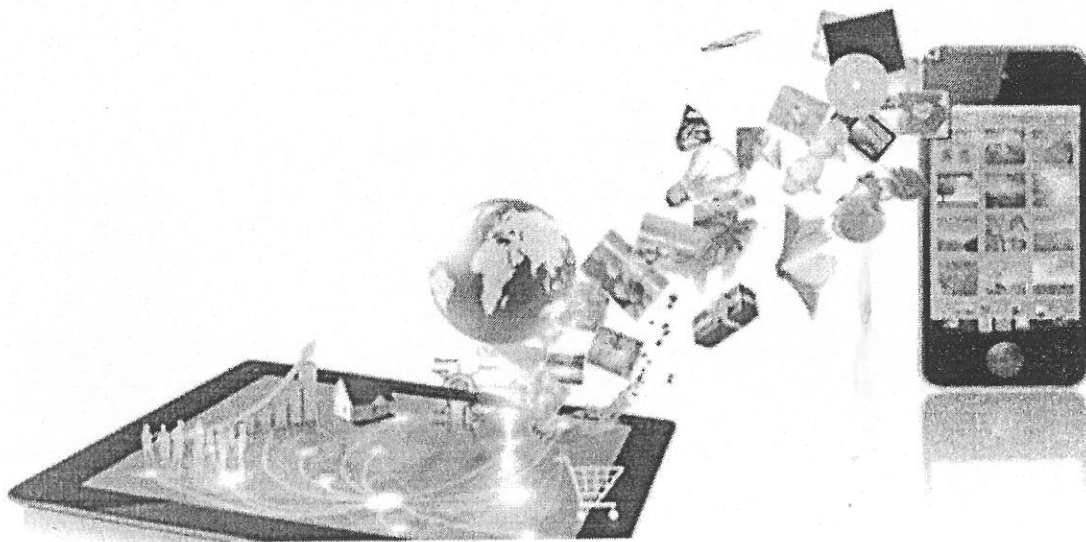

Bollywood Movie Posters: www.BollywoodMoviePosters.com

GoGetGuru, Suraj Wadhvani & Mayank Thanvi

An alumni of TSEC, Suraj Wadhvani with friend, Mayank Thanvi decided to make education more easily available to people in the digital age. With this purpose in mind, he developed GoGetGuru, an online teaching service. Learn the basics of marketing from rates starting from as low as Rs 550! The other courses range from technical ones like Android development to honing your hobbies like photography, sketching, among others. For all the Paris loving *Monsieurs*, French courses are also available!

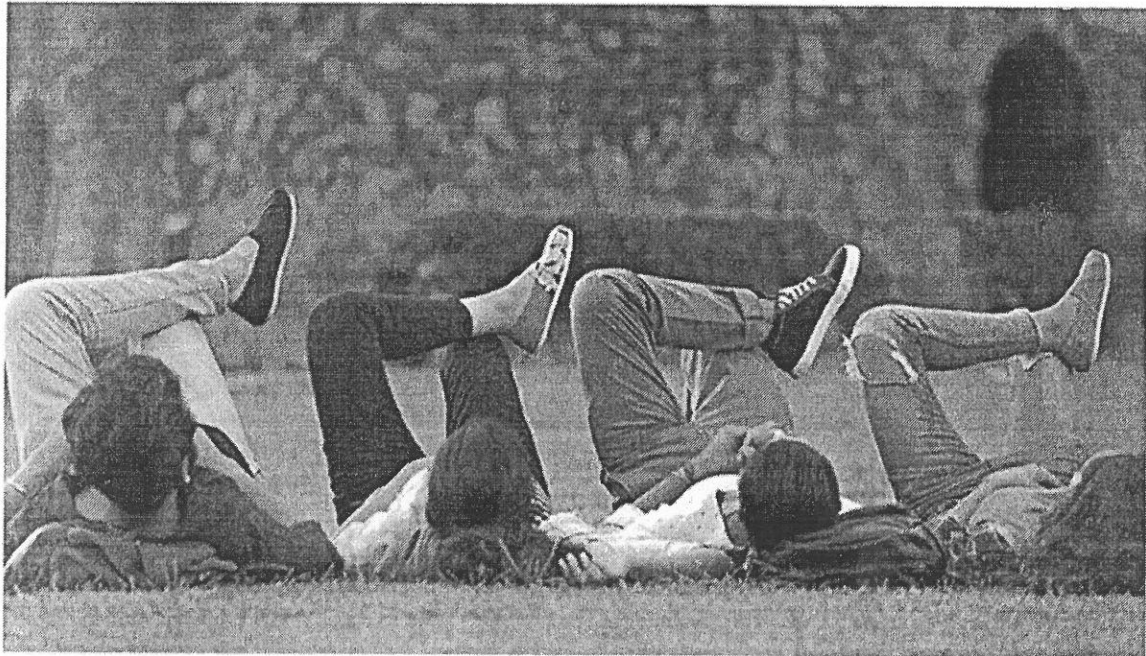

Website:<http://www.gogetguru.com/>

BlackCurrant, Jay Mehta

Jay Mehta, a former student of TSEC co-founded BlackCurrant, the ultimate app solution for businesses. The basic idea is to fulfill communication needs through websites and innovative media. With a user friendly interface, the app's settings allow you to adjust it as per your requirements. Easy peasy!

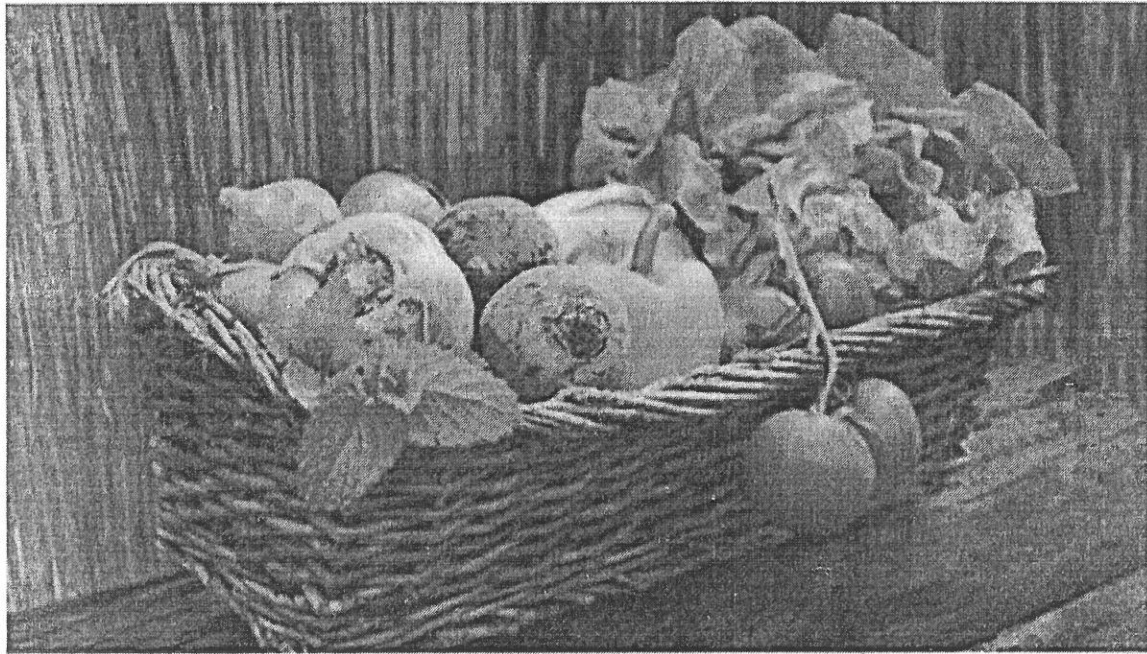

Website:<http://www.blackcurrantapps.com/>

Rivir, Ankeeta Deb

Trying to understand the language of shoes, Thadomal Shahani Engineering College's Ankeeta Deb founded Rivir. Her idea was to design shoes that bespeak life and its various shades. Ankeeta's shoes are more than just style statements, they reflect her perspective on life. So move over custom-made cakes and get your loved ones a pair of personalised Rivir this season!

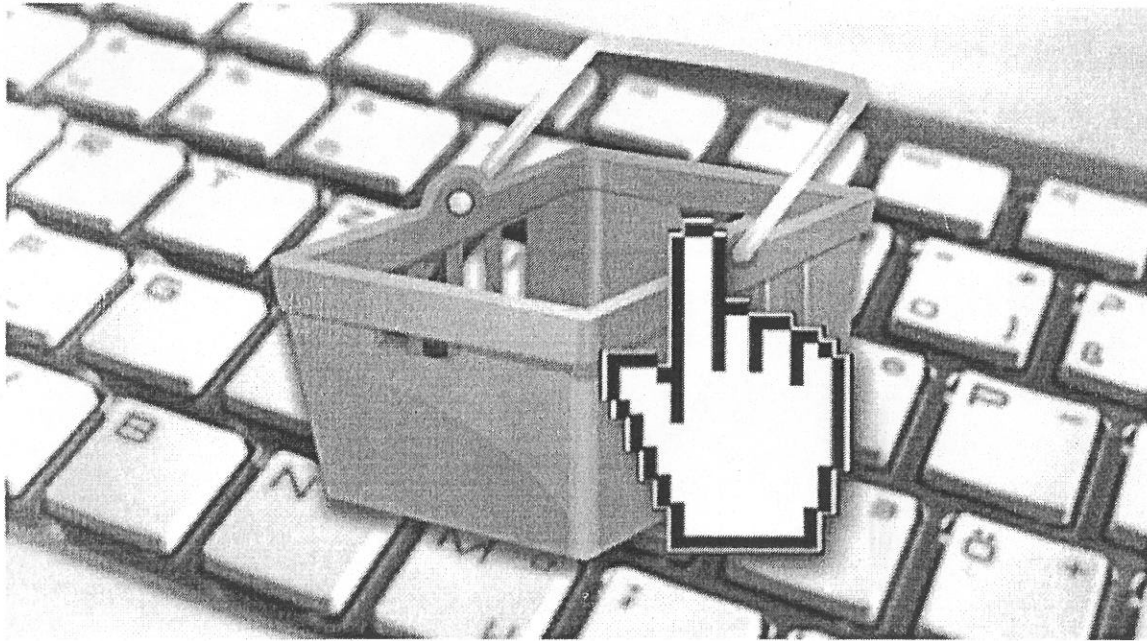

Website: <http://www.rivir.in/about-rivir.html>

Fresco Retail, Karan Gaba

Karan Gaba, a former TSEC student once accompanied his mother to the vegetable market. The poor quality of fruits and veggies that were being sold there inspired him to come up with a fresh idea. He wanted to enhance the standard of organic products to increase their health quotient. Thus Fresco Retail was born that provides customers with chemical free vegetables and fruits produced using ozone technology.

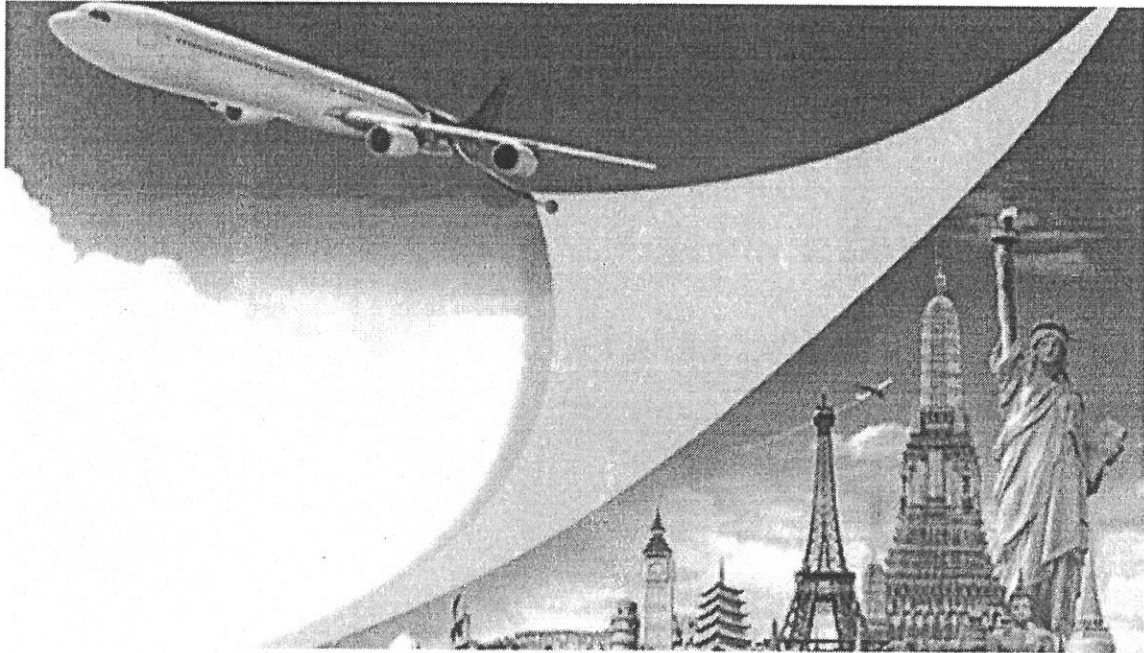

Website: <https://www.facebook.com/frescostores/>

Instadev, Devansh Lala

A former student of Thadomal Shahani Engineering College, Devansh Lala aims to bring digital education to students as well as teachers. In tandem with the current digital revolution, his company seamlessly integrates technology to give a new face to the concept of digital education in India.

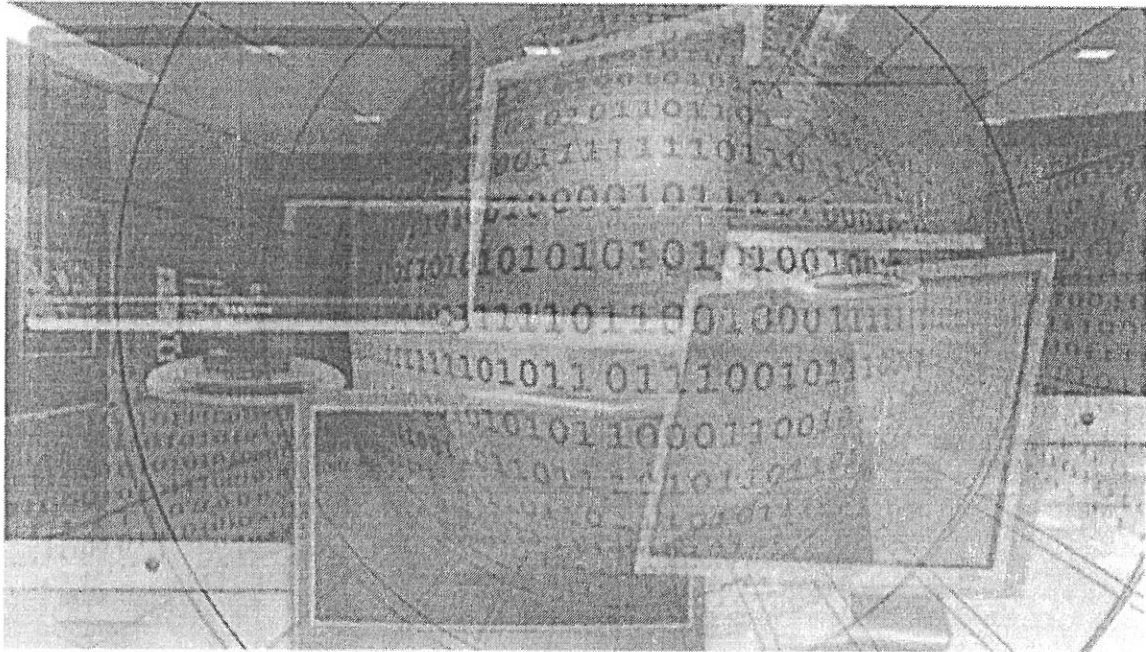

Website: <https://www.facebook.com/officialinstadev/>

PlanMy.Travel, Aashish Gupta

Helping you to plan your trip with ninja like precision, TSEC alumni Aashish Gupta founded PlanMy.Travel. All you need to do is book your tickets and the rest of the trip about where to go and what to do will be laid out by the ninjas (travel planners) of his company. You can get a personalized itinerary for trips ranging from three days to about 12 days.

Website:<http://planmy.travel/>

Anytechsol, Inder Wadhwa

Ensuring that you are knowledgeably *au fait* about the latest technical developments is the log created by Inder Wadhwa, a former student of Thadomal Shahani Engineering College. The blog, apart from providing you with news about new launches, provides tutorials related to how to update your operating system. Moreover for all the Apple loyalists, this blog is almost like your notification panel.

Website: <http://anytechsol.weebly.com/>

BESPOKE BRANDING

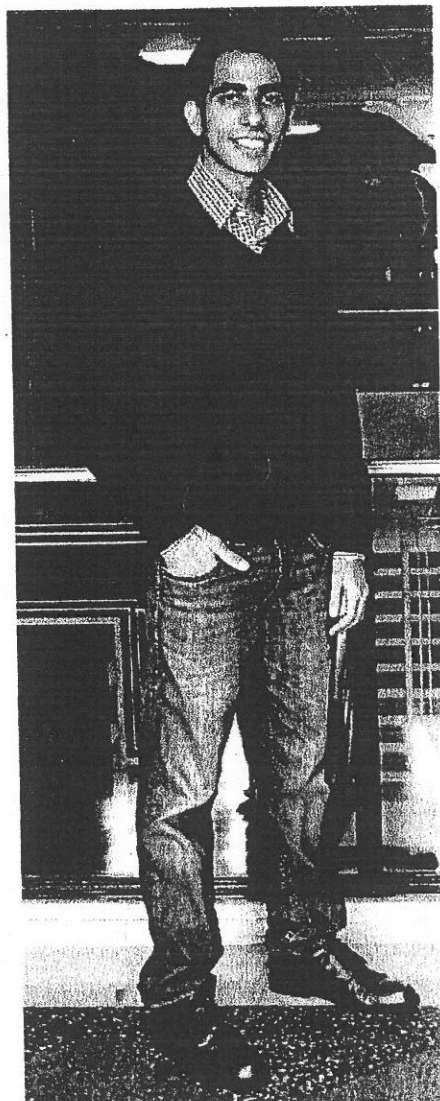

AMBITIOUS ANGAD JAGTIANI, CEO AND FOUNDER OF ONLINE STORE DOT, LETS AMAIRA CHHABRIA IN ON THE STRUGGLES AND SUCCESSES OF A GEN-NEXT ENTREPRENEUR

If you are feeling the urge to communicate your creativity, try browsing through Dot's collection. Twenty-year-old Mumbai based, Angad Jagtiani (currently pursuing a B.E in Computer Science from Thadomal Shahani Engineering College) is the brain behind this website that specializes in manufacturing bespoke merchandise across a variety of genres like music, movies, and cartoons.

Dot was set up in September 2014, taking into consideration calculated risks and initial investments. The venture was mocked by many, but Angad remained unfazed. Floodgates opened up as he partnered with Sophia College's cultural festival – Kaleidoscope, and that was the only push he needed.

Their 32mm badge patterns are usually based on fan-art created by them, and sold at affordable prices. A few months into his business, it was Angad's love for designs that made him introduce intriguing posters. Soon after, a suggestion by his mother (Sapna Jagtiani) to produce fridge magnets, was one that he took seriously and a move that boosted sales.

With the 'Single Taken Hungry' badge

and popular sitcom 'Friends' inspired poster being their best sellers, Dot delivers products across the city with a no minimum purchase requirement, caters to bulk orders that represent the branding of companies, or simply sticks to a client's personal taste. Angad has participated in exhibits at multiple educational institutions and utilizes social media platforms to promote his brand.

Having received a stupendous response, he is looking forward to expanding his company into design and merchandising across various metropolitan cities in India. With an aim to make his portal the most economic and widespread online space, he is now focusing on a greater target audience.

Fond of reading and photography, Angad cooks up appetizing meals in his free time. He is also a trained professional dancer at Shiamak Davar's dance school and a member of the Young Amil Circle, an initiative by the Amil Panchayat.

The reality of owning your own business is but a pipe dream for most students, but there are some exceptions, like this Sindhi prodigy.

4 students show Mumbai varsity how exam house should function

Kandhan Sivasatya @kandhanSiva

Mumbai: Be the change. Accept the challenge. When four Mumbai University students did that, it made a difference to the lives of 10,000 students in over 200 colleges. And it even changed the way the university's most crucial and controversial department - exam time - that bodies functions.

In June 2013, when four final year B.Tech students from the prestigious Shrihari College of Engineering got their mark sheets, they were in for a shock. Mark Nikhnik, Pandya Hitesh, Bhonde Dev and Hitesh Bhonde realised that the marks in their paper were much less than what they expected. The photocopy of the answer sheets proved they deserved better. The four sent the letter to approach the exam house of the university.

As with most students, they too had to do several rounds. "We used to wait from morning till late evening to get an audience with the Controller of Exams. After a month and a half, we met him," Hitesh told them.

(L to R) Hitesh Modi, Gurnish Bhatia, G. Dinesh Bhonde, Dev Mehra, Nikhnik Pandya

The four went to the Controller of Exams and started working from November 2013. They were asked to write procedures to make engineering examination fairer, both in terms of entry of marks online.

With the help of their programme, we could decline the engineering results of 40,000 candidates in the first and final years of 2013-14. In one month," said Bhonde. Bhonde also gives them credit for writing a programme through which, for the first time, MU managed to provide degree certificates to all 1,10,000 candidates in the university in 800-plus colleges early this year together. "Their programme also has options for spelling corrections, which was made available to all candidates, where going for printing. This helped us catch usual errors that creep into the Marathi version of citation in the degree."

For commendable work, the students were paid Rs.10,000 per month by the University. Dev and Gurnish had already joined University of Texas and New York University respectively. Nikhnik is set to leave for Sorbonne to join North Eastern University at Boston. Hitesh would leave in December to join South California University Los Angeles. Before leaving India, Nikhnik and Hitesh are trying to train the exam house staff so that they can pick up from where the students left.

ABOUT

BlackCurrant Apps.

BlackCurrant Apps is a Solutions and Services Driven Product company providing solutions to clients in a comprehensive manner that fulfills their exact requirements. BlackCurrant Apps is strategically focused on detailed and robust understanding of client's business and their requirements and creating a product which is both reliable and apt for the client.

BlackCurrant Apps LLP, founded by Jay Mehta and Sanket Berde, being the CEO and CTO of the company respectively, they have been rigorously marshalling limited resources to the most productive uses with the aim of creating maximum value for the company's stakeholders. The key factors propelling company's growth are the use of latest scalable frameworks, rendering cloud based services and commitment towards client in terms of deliverables and timelines.

At BlackCurrant Apps we aim to build long term partnership with our clients. With client's support, we seek to maximize the potential of our business through a combination of enhanced quality service, creative marketing, innovative pricing and cost efficiency. We have a vision of becoming one of the leading service providers in areas of Information Technology, Product Engineering and IT Consulting. Quality of Service has been the center of focus for us, despite of the scalability & sensitivity of any project that we have catered till date.

TSEC E-CELL- Biomedical

TSEC-E-CELL conducted its very first intra-college project exhibition on 23rd of February, 2017.

Over 500 students from 6 departments from all the four years, participated in this event. A total of 11 projects were presented by the Biomedical department and were example of innovative and problem solving prototypes that could be implemented in the industry at any given point of time. The exhibited projects were a complete blend of medicine with technology to solve the current problems faced in the medical industry. Students used Arduino to design their projects having microcontroller as their backbone. The following were the projects that were demonstrated:

1. Segmentation and identification of brain tumor from MRI images.
2. Detection and Classification Of Facial Expressions
3. Vein Detection Using Infrared For Venepuncture
4. Adaptive Noise Reduction and Classification
5. Prototype Model of Digital Blood Pressure Monitor
6. Detection of Diabetic Retinopathy
7. Hand Gesture Recognition System For Speech Impaired People Using Indian Sign Language
8. Obstacle Distance Classifier Using Ultrasound For Visually Impaired
9. Bluetooth Controlled Robotic Arm
10. Crispr -GENE Editing
11. 5- Fingered Prosthetic Arm

Project EXPO Winners

The first prize was awarded to:

HAND GESTURE RECOGNITION SYSTEM FOR SPEECH IMPAIRED PEOPLE USING INDIAN SIGN LANGUAGE

There was a tie-breaker for 2nd position which was awarded to

OBSTACLE DISTANCE CLASSIFIER USING ULTRASOUND FOR VISUALLY IMPAIRED and BLUETOOTH CONTROLLED ROBOTIC ARM

Also the judges were impressed by the project and they awarded a SPECIAL PRIZE to the **5-FINGERED PROSTHETIC ARM**. Dr. Anchal Gupta, the Director of Yogi Kripa Medi Chem Pvt.Ltd. suggested that some of the projects even had the potential to be considered and to be funded by the investors and can be mentored for a start-up!

Schedule for TSEC Startup Stories

4 messages

Wed, Sep 5, 2018 at 9:06 PM

TSEC E-Cell <ecelltsec@gmail.com>

To: Pratik Kaprani <pratik.kaprani@gmail.com>, manmeet@klarity.in, Aditya Mondkar <adityaa@monsafafoods.com>

Dear Sir,

The schedule for TSEC startup stories has been changed to New building classroom number 604.

The flowplan of the event is as follows:

12:00- Arrival of speakers at Old Building ground Floor.

12:10-12:50-Lunch in Old building classroom 605.

12:50-1:00 - Escorting speakers to their respective venue.

1:10-1:25 - Aditya Mondkar .

1:30-1:45 - Roshni Khanna.

1:50-2:05 - Pratik Kaprani.

2:10-2:25 - Madhura Shinganapurkar.

2:30-2:45 - Manmeet Singh Akali.

2:50 onwards Q n A session

Incase of any query contact us at 9820890896.

Thank you

Regards,

TSEC E-Cell

Wed, Sep 5, 2018 at 9:39 PM

Pratik Kaprani <pratik.kaprani@gmail.com>

To: TSEC E-Cell <ecelltsec@gmail.com>

Thnks for the schedule.

But Im not satisfied with the schedule.

You all have kept the session by calling all speakers at once..

It should nt more than 2 or max to max 3 speakers on one day..

In 15 min wt to explain..

Think aand plan....

Regards,

Pratik k

To: Pratik Kaprani <pratik.kaprani@gmail.com>

Hi Sir,

We apologise for the short time duration. It would be great if you could mention what is your requirement of time of your speech. We will try our best to manage accordingly tomorrow.

We also assure to take your view into consideration for future events.

Thank you.

Regards,

TSEC ECELL

To: madhura.vs@sunelectro.co.in

Dear Madhura Shinganapurkar,
Thadomal Shahani Engineering College (TSEC), your beloved Alma mater, is immensely proud of all your exemplary achievements and the glass shattering success stories of your startup. All the budding entrepreneurs on the campus look up to you and you're an inspiration to each one of them. It is indeed our honour and our privilege to invite you as one of the speakers in the Guest Speaker Series of the TSEC STARTUP STORIES, an initiative taken by the E-CELL TSEC to encourage the aspiring entrepreneurs. We would be thoroughly delighted and eternally grateful if you could take out some time and come over to the campus to share and enlighten us with your experiences, learnings and your success mantra.

The event schedule is as follows:

The event starts at 1pm and it will last till 3pm.

Also, we are providing lunch prior to the event, so it would be convenient if you reach the campus by 12:15.

There would be 4 speakers along with you.

So, each speaker can take around 20-25 minutes to talk about:

-Life in TSEC

-Way you thought of a Startup idea and about your mentor

- Your struggles in setting up your startup

In the end, there will be a 15-20mins Q&A session.

Looking forward to a positive reply and a fruitful association with you.

Thanking you,

Regards

E-CELL TSEC

We got your reference from Gauri ma'am.

E CELL- TSEC

"The best time to plant a tree was 20 years ago. The second best time is now."

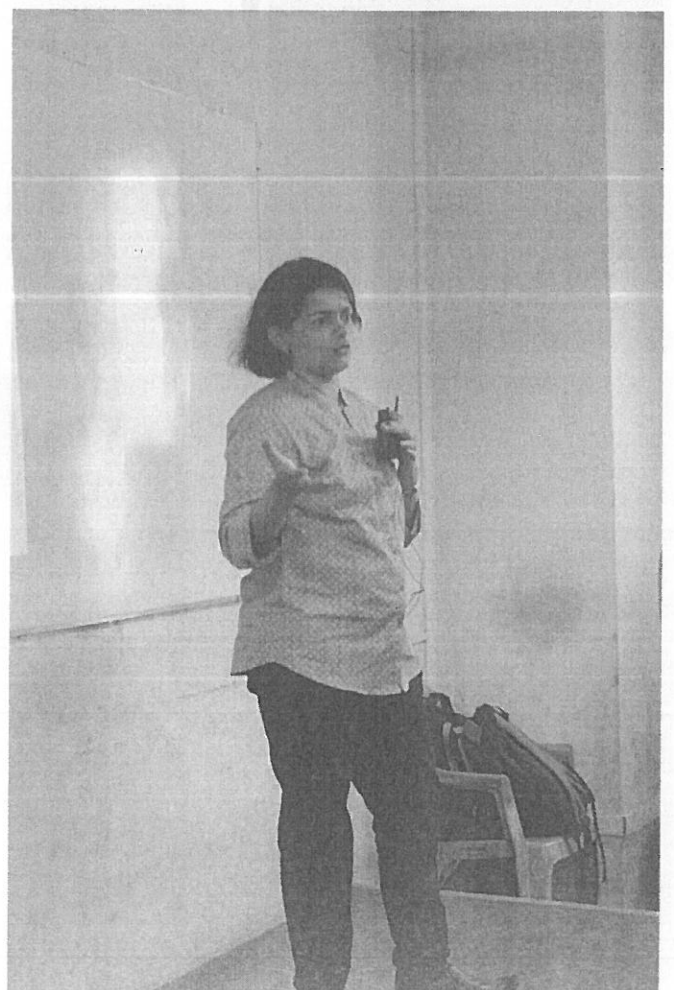

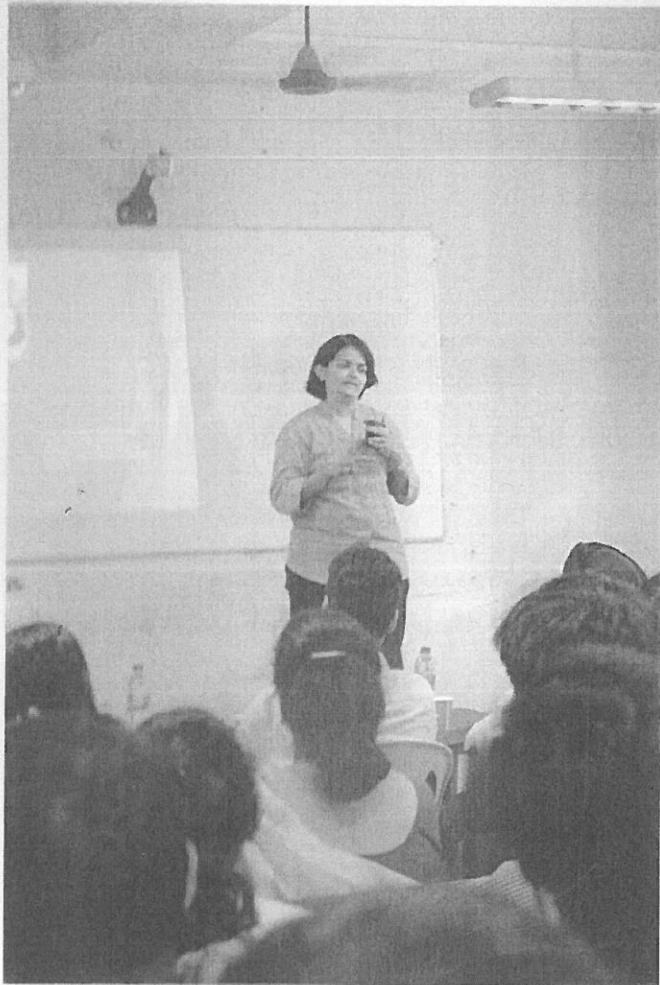

When innovation and dedication come together an entrepreneur is born.

The TSEC Entrepreneurship Cell blossomed this academic year with the vision of establishing an environment where new ideas can be cultivated and where innovative minds are not just staring into oblivion.

TSEC E-Cell has the sole mission of providing its students with a platform where they can think, innovate and create. A place where budding entrepreneurs can hone their skills, facilitated with various workshops, seminars and all the necessary resources.

TSEC E-Cell began its activities this year with popular comedian and entrepreneur, Vipul Goyal inaugurating the reinstated and thereby active student body whilst sharing his views on the journey of being an entrepreneur. This was followed soon after by a pep talk by Mr. Krishnakumar Devnally, Director, m-Power Solutions, who guided students on the various aspects of being an entrepreneur, discussing about the nuances of owning startups, thereby clearing all the misconceptions students had about entrepreneurship. The highlight of this academic session was undoubtedly the 'TSEC Project Expo 2017', a project exhibition open for all students across all the four years which was judged by experts from the industry. The project exhibition was a massive success with many students receiving funding opportunities from investors to develop their ideas and make it fully industrially viable.

The TSEC E-Cell hopes to work with the same enthusiasm and zest for years to come and thereby inspire students to create and innovate.

Try to reduce the speakers....always...just dnt keep it for sake...I m surprised tell me that..in 15 minutes what to introduce and what not...time will go describing our selves only.

We dnt plan and come.It is imprompto..

I dnt find it meaningful this session

3. BLUETOOTH CONTROLLED ROBOTIC ARM

(Runner-up)

Anurup Salokhe, Ritesh Shelar, Amruta Mugdum, Sanket Kamble.

Guide: Ms. Gauri Shukla.

anurup.salokhe08@gmail.com, shelarritesh42@gmail.com, amrutamugdum1995@gmail.com,
sanketkamble18.rekha@gmail.com, gaurimshukla@gmail.com

Project Description:

Robotic arm displays wide variety of application area like robotic tele-Surgery, walk assistance and limb empowering, industrial automation, transporting devices and handling radioactive materials. There are various ways to control robotic arm in order to achieve the desired movement. In this project articulated robotic arm is controlled by android mobile application using Bluetooth technology. The prototype robotic arm used in this project has six degrees of freedom. The motors are installed at various location; two in shoulder for up down and base rotation, one at elbow, two in wrist and one at finger. The user gives the commands for moving these motors using application present on android mobile. Mobile phone sends commands to Bluetooth module which is a receiver. Bluetooth module receives the command and forwards it to the Arduino UNO. Based on the command received the controller drives the specific motor incorporated in the arm to achieve precise and accurate movement of the robotic arm. Using this technique the robotic arm can be operated wirelessly through long distance approximately 10m. as well as the arm can be located behind the walls or some other object.

Future Scope:

Wireless camera can be introduced to observe the activity of the robotic arm from another place while controlling it.

Design Implementation:

The Ultrasonic Sensor was interfaced with Arduino and the corresponding output was observed via haptic feedback or Serial Monitor. Similarly Multiple Ultrasonic sensor modules (9) were interfaced to Arduino in the form of a 3X3 matrix and the corresponding output was generated on haptic feedback (Vibration Motor) 3X3 matrix as well. This design included nine obstacle sensors and nine output motors (feedback).

Operation/Working:

Upon working solely with an Ultrasonic Sensor module in a demonstration, where we took a Bob (Obstacle) and measured the distance detected by the sensor by obstacle placed at predefined positions. The generated result gave us a particular pattern which was the actual profile of the sensor. We used ultrasonic sensor to obtain the distance from obstacle and later according to the threshold we gave this signal to the output in the form of haptic feedback. Similarly we performed same function with multiple sensor modules to obtain a 3X3 matrix or image profile of the obstacle.

Future Scope:

1. Cane free walk.
 2. This Device can replace the existing solutions for visually impaired persons by increasing the field angle of vision compared to Smart Cane.
 3. Sixth sense of the visually impaired can be enhanced with Obstacle Visualization.
- If Interfaced with GPS Module, can help the user to transit from one vicinity to another.

2. OBSTACLE DISTANCE CLASSIFIER USING ULTRASOUND FOR VISUALLY IMPAIRED (Runner-Up)

Aditya Indurkar, MujibAhmed Khan, Shahnish Khan.

Guide:Mr. Tanvir Daphedar.

adityaindurkar@gmail.com, khanmujibahmed26@gmail.com, shahnish1@yahoo.com,

tanvir.daphedar@gmail.com

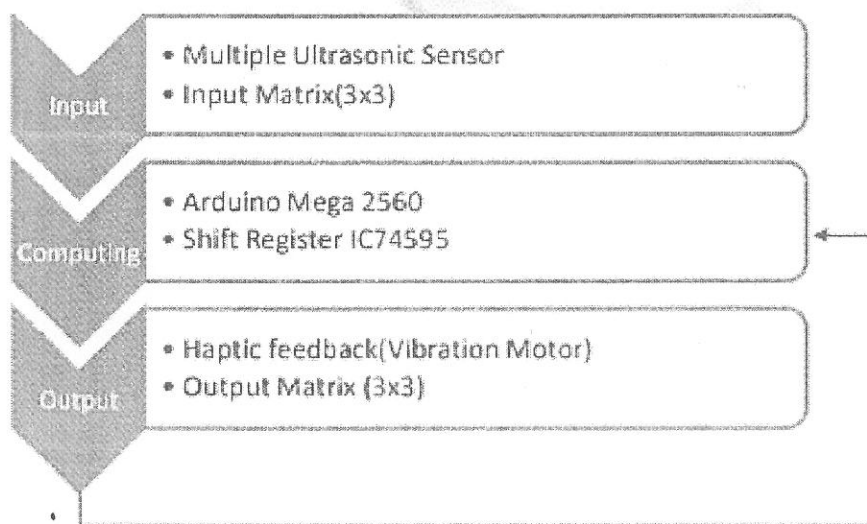

Project Objective:

The scope of this project is to build the device for Visually Impaired population with improved features than the traditional Cane/Smart Cane.

Introduction:

An ultrasound sensor module array/matrix is used which detects the presence of any obstacle and sends the signal to microcontroller which gives corresponding Haptic (Vibration) feedback via array/matrix to the visually impaired person.

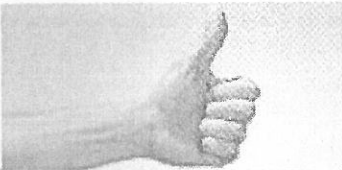

Process Diagram:

Working:

Take analog input from ten flex sensor attached to finger, an ADC converts resistance into digital value and according to digital value message as per gesture displayed on LCD.

Results:

GESTURE	MESSAGE
	OK
	YOU ARE RIGHT
	LUNCH
	I AM HAPPY

Future Scope and Application:

1. Used by speech impaired people for communication with normal people.
2. This system can be made wireless.

This system can be developed into a device that includes various sign language of different countries.

1. HAND GESTURE RECOGNITION SYSTEM FOR SPEECH IMPAIRED PEOPLE USING INDIAN SIGN LANGUAGE

(Winner)

Deepali Chaudhari, Shraddha Mhetre, Shreeya Satgounda,

Guide: Dr. Mita Bhowmick,

dips666chaudhari@gmail.com,shraddhamhetre19@gmail.com,shree1995ps@gmail.com

Project Objective:

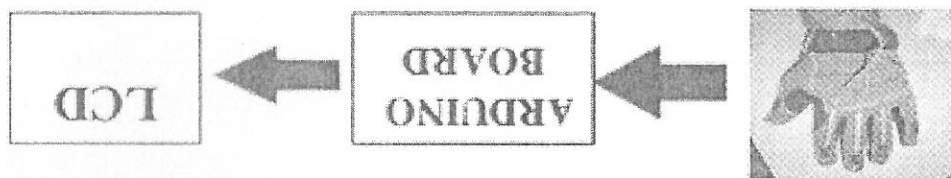

Interaction between speech impaired people and real environment. Enabling useful assistive device for speech impaired people to be modelled and evaluated. Facilitating the study method of navigating environment by speech impaired people.

Project Description:

Communication plays an important role for human beings. Communication is treated as a life skill. There are 70 million people in worldwide and 2.78% in our country who are not able to speak and listen. Their communication with others is using with their motion of hands and expressions i.e. gestures. This problem of interacting with other people can be easily overcome by construction of communication system which allows communication of such impaired people with others without the need of middle interpreter.

Flex sensors are placed on hand gloves for the use of above said people. Flex sensors resistance changes according to the flexion experienced. Sensors in the glove pick up gestures and transmit that to text data with the help of Analog to Digital converter and Arduino.

Block Diagram:

EXPERTS SPEAK

PANEL DISCUSSION – BIOMEDICAL AND EXTC

The discussion was led by the Head of Departments from BME and EXTC department who expressed their interest in the number of students participating and converting their ideas into prototypes. The panelists included Mr.D.V.S. Subramaniam, Mr. Krishnakumar Devnally, Ms. Anchal Gupta and Mr. Ninad Mehendale who are leading pioneers and entrepreneurs in their fields. The judges spoke about their interaction with the students and praised them for the efforts taken. They stressed on gaining as much practical knowledge as possible by coming up with ideas for projects and then implementing it, presenting and publishing research papers, taking up internships. The importance of originality of an idea was discussed. Mr. D.V.S. Subramaniam spoke about what the industry expects from Graduate students- Originality, Practicality, Problem Solving Approach being the most important traits. The old WWW being of utmost use after the University learning was a brief point in discussion. Entrepreneurship was another important aspect of the interaction. Common questions by the students in this regard were about how to transform ideas into useful products and how to bring them into the market. Mr. Devnally encouraged students to have their own start-ups, and was quoted as saying, "Right attitude, Decision Making Ability, Alertness and the hunger for learning new things can take you anywhere". The Department Heads thereby declared the winners. A vote of thanks was given by Gauni Ma'am and the students looked forward to their next encounter with such a grand event.

E- cell Project Expo'18, was held on 14th March 2018. Third year and final year students had participated in this Expo. From department of biomedical engineering around 12 groups of students had exhibited their project ideas. "A smart glove interpreter" and "Early detection and prevention of neck problems using accelerometer and gyrometer" had secured First and Second rank in this expo. Both the projects were guided by Dr. Mita Bhowmick. "Help-Met" idea presented by third year students received special judge's award.
