Feedback Process of the Institute

The institute aims to offer the best possible environment and learning experience to encourage students to perform to their full potential for academic achievement. Students, teachers, alumni and employers play an important role in the evaluation, development and enhancement of the quality of this learning experience. Feedback from students, teachers, alumni and employers helps the college to evaluate its policies and make changes as per stakeholders' requirements.

Data was collected by sending Google forms to the various stakeholders for all the courses. Analysis of feedback clearly depicts that they are well satisfied with the curriculum development and revision. The analysis of the feedback received from various stakeholders reflects the adequacy of the syllabus.
