Technology Acceleration & The Reading Room Webinar

Date: 30th August, 2020

Time: 4 pm onwards

Number of Participants: 55

Our speaker for the webinar was Abhishek Raghunath, a journalist turned entrepreneur who was a part of the founding team of Forbes India and start-up team of Times Now and Neo Sports. He believed business should be easily available to everyone through books. The session started with technical business innovation and ideas and was followed by an online reading room session where everyone 'read books without reading them'. This free webinar gave the attendees amazing insights of the best business books and strategies!

Startup Stories

Date: 31st October, 2020

Time: 11 am onwards

Number of Participants: 60

Startup Stories is one the signature events of TSEC E-Cell's Embark [2020]. The first speaker was the CEO and Founder of GOZOOP, Mr. Ahmed Naqvi, who is the pioneer of the digital marketing industries in India!

The next speaker was a social entrepreneur and Co-founder and CEO of Monks Bouffe, Mr. Gaurang Motta.

Both the speakers shared their experiences and helped clarify the doubts of many budding entrepreneurs!

▶ Example :- when you have a product say a cloth piece which you list on any online platform is amazon or flipkart , at the price of 300 , that's not the real money which actually comes in hand

▶ Now this 300 rupees include charges as follow

1. Referral Fee :- ₹22.43
2. Fixed Closing Fee:- ₹5.00
3. Shipping Charges:- ₹ 77.88 (Assumed Maximum , But Depends on From which Region order is Received)
4. GST on Product Inclusive 18% :- ₹ 54
5. Packaging Fees:- ₹ 10

Money in hand is :- $300 - 22.43 - 5 - 77.88 - 54 - 10 = ₹ 130.69$

Pitch Perfect!

Date: 27th March, 2021

Time: 11 am onwards

Number of Participants: 70

This event witnessed the confident contestants from various colleges pitching their way to victory. With the products provided by us, the contestants were judged based on their preparation, content of presentation and confidence. The judges being expertise of their own field gave valuable inputs to the participants which helped to improve for the second round. The first round had people presenting on the topics given by us. The best presentations per product were selected for the second round. The second round saw the competition of the best of the best.

The judges were Mr. Jayesh Tekchandaney from industrial background and Ms. Disha Jeswani from the IPR and law sector.

Investing In Stock Market 101

Date: 27th March, 2021

Time: 4 pm onwards

Number of Participants: 130

Investing In Stock Market 101 was a webinar that helped the enthusiastic attendees familiarize themselves to the world of stock markets. The session was led by Mr. Anupam Roongta, a SEBI registered research analyst and has a financial planner certification. He has an experience of 14 years in various fields related to Stock Market and Financial Planning. He also has an experience of 10 years in helping people with investment strategies, mutual funds and stock market. The speaker answered the doubts from the audience too. Overall, it was quite insightful and a grand success.

Entrepreneurship Cell (E-Cell) – TSEC

❖ About “E-Cell – TSEC”:

TSEC Entrepreneurship Cell (E-Cell), since its inception in January 2017, has been continuously striving with a sole mission in mind-

- *To provide a pathway for the students to develop the entrepreneurs within them.*
- *Bridging the gap between the students and the industry will certainly play a pivotal role in helping us achieve this mission.*

❖ Major Activities of E-Cell:

From Academic Year, 2017-18, under the roof of E-Cell, TSEC, we are conducting majorly following 2 activities –

1. **Project Expo:** *This inter-collegiate exhibition will focus on fostering the art and culture of prototyping the ideas which can take form of supreme next-big startups in the industry. Through this, The students from various departments in TSEC are encouraged to present their innovative technical and business ideas through working models, prototypes, posters, etc.*
2. **TSEC Start-up Stories:** *An initiative taken by the E-CELL TSEC to encourage the aspiring entrepreneurs. This includes, "TSEC Alumni cum successful Entrepreneurs meet and Discussion with students". In This, we invite few of our Alumni (2 to 4 from each department) who are the successful entrepreneurs today and arrange their talk in front of the students where our alumni share about their success stories, important entrepreneurship skills, prerequisites to become an entrepreneur, finance management, current opportunities, etc.*

Hello

This is Sanober Shaikh from TSEC. As per our telephonic conversation, I had mentioned that we are having Project Expo in TSEC Bandra on 14th March Wednesday from 10:00 am to 4:00 pm. We need a judge from Industry from Computer/IT background to judge the selected B.E. projects. So requesting you to be a part of this project Expo.

Waiting for a positive reply from you.

Thanks.

Hello Mam,

It was my privilege to be part of Project Expo -2018 on 14th March 2018. Following are highlights about the event I liked the most.

- Live demo of the projects on Automation and IOT. These are actually trending currently in industry.
- TSEC students have good confidence as always and it was good to see it continue while demonstrating.
- Good to see students coding in Python and working on NoSQL databases.
- Few projects even went ahead and approached industry and government to understand their concern to work on it.
- Few projects had really very good presentations – (Donor 24*7, Fitbit).
- Few ideas were really good and can be converted into products if worked with same dedication.

Few projects I remember still:

- What a Saver
- Fitbit
- NeuralNetwork used in video animation
- Traffic signaling
- Door lock
- 3D based real estate
- Last but not least – (Nayana) "Inspiring and really different thought"

Once again, I would like to Thank all Teachers for inviting me to such a great event like this. It is great to see college motivating students to progress in Industrial direction.

If I keep Project Expo parameters apart, All the projects were **extremely GOOD**. All the hard-work put on studying new technology will definitely be helpful in future.

Thanks and Regards

Dear Deepak Bhagchandani,
Thadomal Shahani Engineering College (TSEC), your beloved Alma mater, is immensely proud of all your exemplary achievements and the glass shattering success stories of your startup. All the budding entrepreneurs on the campus look up to you and you're an inspiration to each one of them. It is indeed our honour and our privilege to invite you as one of the speakers in the Guest Speaker Series of the 'TSEC STARTUP STORIES', an initiative taken by the E-CELL TSEC to encourage the aspiring entrepreneurs. We would be thoroughly delighted and eternally grateful if you could take out some time and come over to the campus to share and enlighten us with your experiences, learnings and your success mantra.

Looking forward to a positive reply and a fruitful association with you.

Thanking you,

Dear Sir,

It's our privilege to invite you as a speaker for the entrepreneurship talk on 6th September, 2018 to guide and answer our students' queries regarding their future. Your experience and knowledge would provide a stepping stone for their career.

The event schedule is as follows:

The event starts at 1pm and it will last till 3pm.

Also, we are providing lunch prior to the event, so it would be convenient if you reach the new building campus by 12:15 pm.

There are 4 speakers along with you.

So, each speaker can take around 20-25 minutes to talk about:

- Life in TSEC
- Way you thought of a Startup idea and about your mentor
- Your struggles in setting up your startup.

In the end, there will be a 15-20 minutes Q&A session.

We hope that you may give us some of your precious time and guide the students.

Thankyou.

Regards,

Kenil Shah

BESPOKE BRANDING

If you are feeling the urge to communicate your creativity, try browsing through Dot's collection. Twenty-year-old Mumbai based, Angad Jagtiani (currently pursuing a B.E in Computer Science from Thadomal Shahani Engineering College) is the brain behind this website that specializes in manufacturing bespoke merchandise across a variety of genres like music, movies, and cartoons.

Dot was set up in September 2014, taking into consideration calculated risks and initial investments. The venture was mocked by many, but Angad remained unfazed. Floodgates opened up as he partnered with Sophia College's cultural festival - Kaleidoscope, and that was the only push he needed.

Their 32mm badge patterns are usually based on fan-art created by them, and sold at affordable prices. A few months into his business, it was Angad's love for designs that made him introduce intriguing posters. Soon after, a suggestion by his mother (Sapna Jagtiani) to produce fridge magnets, was one that he took seriously and a move that boosted sales.

With the 'Single Taken Hungry' badge

AMBITIOUS ANGAD JAGTIANI, CEO AND FOUNDER OF ONLINE STORE DOT, LETS AMAIRA CHHABRIA IN ON THE STRUGGLES AND SUCCESSES OF A GEN-NEXT ENTREPRENEUR

and popular sitcom 'Friends' inspired poster being their best sellers, Dot delivers products across the city with a no minimum purchase requirement, caters to bulk orders that represent the branding of companies, or simply sticks to a client's personal taste. Angad has participated in exhibits at multiple educational institutions and utilizes social media platforms to promote his brand.

Having received a stupendous response, he is looking forward to expanding his company into design and merchandising across various metropolitan cities in India. With an aim to make his portal the most economic and widespread online space, he is now focusing on a greater target audience.

Fond of reading and photography, Angad cooks up appetizing meals in his free time. He is also a trained professional dancer at Shiamak Davar's dance school and a member of the Young Amil Circle, an initiative by the Amil Panchayat.

The reality of owning your own business is but a pipe dream for most students, but there are some exceptions, like this Sindhi prodigy.

TSEC E-CELL- Biomedical

TSEC-E-CELL conducted its very first intra-college project exhibition on 23rd of February, 2017.

Over 500 students from 6 departments from all the four years, participated in this event. A total of 11 projects were presented by the Biomedical department and were example of innovative and problem solving prototypes that could be implemented in the industry at any given point of time. The exhibited projects were a complete blend of medicine with technology to solve the current problems faced in the medical industry. Students used Arduino to design their projects having microcontroller as their backbone. The following were the projects that were demonstrated:

1. Segmentation and identification of brain tumor from MRI images.
2. Detection and Classification Of Facial Expressions
3. Vein Detection Using Infrared For Venepuncture
4. Adaptive Noise Reduction and Classification
5. Prototype Model of Digital Blood Pressure Monitor
6. Detection of Diabetic Retinopathy
7. Hand Gesture Recognition System For Speech Impaired People Using Indian Sign Language
8. Obstacle Distance Classifier Using Ultrasound For Visually Impaired
9. Bluetooth Controlled Robotic Arm
10. Crispr -GENE Editing
11. 5- Fingered Prosthetic Arm

Project EXPO Winners

The first prize was awarded to:

HAND GESTURE RECOGNITION SYSTEM FOR SPEECH IMPAIRED PEOPLE USING INDIAN SIGN LANGUAGE

There was a tie-breaker for 2nd position which was awarded to

OBSTACLE DISTANCE CLASSIFIER USING ULTRASOUND FOR VISUALLY IMPAIRED and BLUETOOTH CONTROLLED ROBOTIC ARM

Also the judges were impressed by the project and they awarded a SPECIAL PRIZE to the 5-FINGERED PROSTHETIC ARM. Dr. Anchal Gupta, the Director of Yogi Kripa Medi Chem Pvt.Ltd. suggested that some of the projects even had the potential to be considered and to be funded by the investors and can be mentored for a start-up!

Dear Madhura Shinganapurkar,
 Thadomal Shahani Engineering College (TSEC), your beloved Alma mater, is immensely proud of all your exemplary achievements and the glass shattering success stories of your startup. All the budding entrepreneurs on the campus look up to you and you're an inspiration to each one of them. It is indeed our honour and our privilege to invite you as one of the speakers in the Guest Speaker Series of the TSEC STARTUP STORIES, an initiative taken by the E-CELL TSEC to encourage the aspiring entrepreneurs. We would be thoroughly delighted and eternally grateful if you could take out some time and come over to the campus to share and enlighten us with your experiences, learnings and your success mantra.

The event schedule is as follows:

- The event starts at 1pm and it will last till 3pm.
- Also, we are providing lunch prior to the event, so it would be convenient if you reach the campus by 12:15.
- There would be 4 speakers along with you.
- So, each speaker can take around 20-25 minutes to talk about:
 - Life in TSEC
 - Way you thought of a Startup idea and about your mentor
 - Your struggles in setting up your startup

In the end, there will be a 15-20mins Q&A session.

Looking forward to a positive reply and a fruitful association with you.

Thanking you,
 Regards

E CELL- TSEC

"The best time to plant a tree was 20 years ago. The second best time is now."

When innovation and dedication come together an entrepreneur is born.

The TSEC Entrepreneurship Cell blossomed this academic year with the vision of establishing an environment where new ideas can be cultivated and where innovative minds are not just staring into oblivion.

TSEC E-Cell has the sole mission of providing its students with a platform where they can think, innovate and create. A place where budding entrepreneurs can hone their skills, facilitated with various workshops, seminars and all the necessary resources.

TSEC E-Cell began its activities this year with popular comedian and entrepreneur, Vipul Goyal inaugurating the reinstated and thereby active student body whilst sharing his views on the journey of being an entrepreneur. This was followed soon after by a pep talk by Mr. Krishnakumar Devnally, Director, m-Power Solutions, who guided students on the various aspects of being an entrepreneur, discussing about the nuances of owning startups, thereby clearing all the misconceptions students had about entrepreneurship. The highlight of this academic session was undoubtedly the 'TSEC Project Expo 2017', a project exhibition open for all students across all the four years which was judged by experts from the industry. The project exhibition was a massive success with many students receiving funding opportunities from investors to develop their ideas and make it fully industrially viable.

The TSEC E-Cell hopes to work with the same enthusiasm and zest for years to come and thereby inspire students to create and innovate.

Project Description:

Robotic arm displays wide variety of application area like robotic tele-Surgery, walk assistance and limb empowering, industrial automation, transporting devices and handling radioactive materials. There are various ways to control robotic arm in order to achieve the desired movement. In this project articulated robotic arm is controlled by android mobile application using Bluetooth technology. The prototype robotic arm used in this project has six degrees of freedom. The motors are installed at various location; two in shoulder for up down and base rotation, one at elbow, two in wrist and one at finger. The user gives the commands for moving these motors using application present on android mobile. Mobile phone sends commands to Bluetooth module which is a receiver. Bluetooth module receives the command and forwards it to the Arduino UNO. Based on the command received the controller drives the specific motor incorporated in the arm to achieve precise and accurate movement of the robotic arm. Using this technique the robotic arm can be operated wirelessly through long distance approximately 10m. as well as the arm can be located behind the walls or some other object.

Future Scope:

Wireless camera can be introduced to observe the activity of the robotic arm from another place while controlling it.

Design Implementation:

The Ultrasonic Sensor was interfaced with Arduino and the corresponding output was observed via haptic feedback or Serial Monitor. Similarly Multiple Ultrasonic sensor modules (9) were interfaced to Arduino in the form of a 3X3 matrix and the corresponding output was generated on haptic feedback (Vibration Motor) 3X3 matrix as well. This design included nine obstacle sensors and nine output motors (feedback).

Operation/Working:

Upon working solely with an Ultrasonic Sensor module in a demonstration, where we took a Bob (Obstacle) and measured the distance detected by the sensor by obstacle placed at predefined positions. The generated result gave us a particular pattern which was the actual profile of the sensor. We used ultrasonic sensor to obtain the distance from obstacle and later according to the threshold we gave this signal to the output in the form of haptic feedback. Similarly we performed same function with multiple sensor modules to obtain a 3X3 matrix or image profile of the obstacle.

Future Scope:

1. Cane free walk.
 2. This Device can replace the existing solutions for visually impaired persons by increasing the field angle of vision compared to Smart Cane.
 3. Sixth sense of the visually impaired can be enhanced with Obstacle Visualization.
- If Interfaced with GPS Module, can help the user to transit from one vicinity to another.

Project Objective:

The scope of this project is to build the device for Visually Impaired population with improved features than the traditional Cane/Smart Cane.

Introduction:

An ultrasound sensor module array/matrix is used which detects the presence of any obstacle and sends the signal to microcontroller which gives corresponding Haptic (Vibration) feedback via array/matrix to the visually impaired person.

Working:

Take analog input from ten flex sensor attached to finger, an ADC converts resistance into digital value and according to digital value message as per gesture displayed on LCD.

Results:

Future Scope and Application:

1. Used by speech impaired people for communication with normal people.
2. This system can be made wireless.

This system can be developed into a device that includes various sign language of different countries.

EXPERTS SPEAK

PANEL DISCUSSION – BIOMEDICAL AND EXTC

The discussion was led by the Head of Departments from BME and EXTc department who expressed their interest in the number of students participating and converting their ideas into prototypes. The panelists included Mr. D. V. S. Subramanyam, Mr. Krishnakumar Devnally, Ms. Anchal Gupta and Mr. Ninnad Mehendale who are leading pioneers and entrepreneurs in their fields. The judges spoke about their interaction with the students and praised them for the efforts taken. They stressed on gaining as much practical knowledge as possible by coming up with ideas for projects and then implementing it, presenting and publishing research papers, taking up internships. The importance of originality of an idea was discussed. Mr. D. V. S. Subramanyam spoke about what the industry expects from Graduate students- Originality, Practicality, Problem Solving Approach being the most important traits. The old WWW being of utmost use after the University learning was a brief point in discussion. Entrepreneurship was another important aspect of the interaction. Common questions by the students in this regard were about how to transform ideas into useful products and how to bring them into the market. Mr. Devnally encouraged students to have their own start-ups, and was quoted as saying, "Right attitude, Decision Making Ability, Alertness and the hunger for learning new things can take you anywhere". The Department Heads thereby declared the winners. A vote of thanks was given by Gauri Ma'am and the students looked forward to their next encounter with such a grand event.

THADOMAL SHAHANI ENGINEERING COLLEGE

Report of workshops/seminars conducted on IPR

One of the principal missions of Thadomal Shahani Engineering College as an educational institute is “To create knowledge ecosystem with an endeavor to impart learning by invigorating innovations and research to facilitate students to achieve academic Excellence. TSEC has been constantly endeavoring to train high quality scientific and technical manpower and provide solutions to a variety of challenging technological problems that may arise in different fields. TSEC consciously engaging itself in assimilating and imparting knowledge and provide a nurturing environment to students and faculty to apply the science, technology and engineering principles in innovative projects. TSEC recognizes that creative endeavors are a natural outcome of the pursuit of this mission. Accordingly the institute has been encouraging students and faculty to innovate through research work such that it qualifies for patenting and protection. TSEC also recognizes that the efficient management of research activity and related intellectual property rights (IPRs) would strengthen the institute and provide a strong foundation for growth of human resources, research projects and technologies. To sustain the focus and to support of these goals, TSEC works under policy guidelines for inventions, copyrightable works, trademark and other related intellectual property rights arising from the activities of its faculty, staff, students.

Report on Guest Lecture on Transcending Academic Research in to Patents and Intellectual Property Rights on 12/03/2019

Introduction

The primary aim of the IPR cell-TSEC is to create awareness among student community about IPR/patents and the process involved in filing the same. The Seminar/ Guest lecture was held in alignment of the same.

The Talk/Seminar: The guest lecture scheduled on " Transcending Academic Research into Patents and Intellectual Property Rights" scheduled on 12/03/2019 began at 11:30 am. The expert was introduced and welcomed by Dr Poonam Soni and Dr Mansha Kotwani respectively. Beginning the talk with the introduction to basic terminology of IPR, Dr. Nair deliberated on the need for the IPR/patents. He explained to the students the role IPR /patents play in safeguarding and commercialization of the innovations and ideas.

The lecture/seminar was attended by more than 80 students as well as faculties involved in research.

The lecture being very engaging and engrossing extended beyond its scheduled time of 1:00pm.

Speaker Profile: Dr. Gopakumar G. Nair

In the field of Intellectual Properties, Dr.Nair was the Dean of Institute of Intellectual Property Studies (IIPS) at Hyderabad, India. Presently he heads his own IP boutique firm, Gopakumar Nair Associates and is also CEO of Patent Gurukul, reputed and well-known training centre for Patents. Dr. Nair is a registered Patent & Trademark Agent and also Scientific Adviser to the Patent Office under Rule 103 of the Patents Rules, 2003.

Dr. Nair is a Ph.D from National Chemical Laboratory (NCL), Pune and has Diploma in Management & Patent Law. Dr. Nair is also a Law (LL.B) graduate from Mumbai University. He is IPR Committee Chairman of Indian Drug Manufacturers' Association (IDMA). Dr. Nair has many articles and publications to his credit, including valid granted Indian patent, as an Inventor. 40 years in Pharma Industry as Director, Managing Director & Chairman of various public limited pharma companies, Dr.Nair has also served Industry Associations for more than 35 years in various capacities, latest as President of Indian Drug Manufacturers' Association (IDMA), during 1999-2000. Dr. Nair is also Editor and Editorial Board Member of various publications and journals, relating to pharma, biotech and chemicals, including IDMA Bulletin and INDIAN DRUGS. He is also associated with various Educational

THADOMAL SHAHANI ENGINEERING COLLEGE

Institutions such as President, Bharat Education Society, with schools & colleges under its ambit.

Outcomes:

Some of outcomes are listed below:

Faculty members/Students got familiar with the basic concept of IPR/patents.

They also got a broad outline of the process involved in filing of patents and significance of IPR in protecting one's Academic/technical innovations.

Conclusion

Conclusion: The Lecture was organized with the intent to disseminate the information and bring awareness about IPR/patents among students. It was an enriching learning experience for faculties as well as students. The lecture turned into a very interactive session with students raising their queries regarding the credibility of their ideas to convert them to patents. Faculties brought forward their interests in transforming academic research into IPRs. To summarize Dr. Nair's lecture was and detailed instruction was very enriching for all.
