NATIONAL COLLEGIATE BOARD

## THADOMAL SHAHANI ENGINEERING COLLEGE

Date: 3<sup>rd</sup> March 2018

### CIRCULAR

IQAC of the college is assigned to recommend the ways and means of deploying technology solutions to automatically regulate optimal use of water.

IQAC shall also expected to carryout following measures to minimise water wastage in the campus.

- Organize a “SAVE water “movement in the campus to sensitise all concerned about the impending water crisis reported in various studies conducted by United Nations agencies.
- Take measures to replace washroom fittings, water coolers, pipes and joints which are leaking.
- Carryout a feasibility study for the implementation of recycling of water in coordination with Chemical engineering Department
- Systematically and in instalments replace all the manual water taps by infrared / movement sensing taps.
- Organize training to the plumber employed with the institute to become aware of current level of water conservation methods.

Dr. G. T. Thampi  
Principal
