The sample audit forms were presented, and suggestions were sought. As per the suggestions received from the principal on the format of the course outcomes & lab outcomes mapping & justification, that every teacher is expected to make sure/think aloud while they design/map the course & lab outcomes, efforts should be relating the outcomes to the real time industry problems. In mentor & mentee files, confidentiality of the data should be maintained properly if any problems are encountered and proper remedial articulation shall be maintained.
