THADOMAL SHAHANI ENGINEERING COLLEGE

CODE OF ETHICS POLICY

1) Accentuate innate respect for the academic process.
2) Abide by rules and regulations to make the academic / administrative processes more productive and efficient.
3) Develop high level of empathy and a temperament for social outreach, resulting in contributing to the immediate neighborhood.
4) Behave with a sense of dignity as a member of higher education fraternity, to be emulated by others around.
5) Put in hard work to create new knowledge leveraging library and resources in the public domain through internet.
6) Treat evaluation process and examinations with utmost respect as it is an opportunity for self-evaluation of one's degree of internalization/ involvement in the subject matter.
7) Relate the learnings to real time problems.
8) Treat yourself as human capital to be productive and contribute to evolving businesses, industries and to the processes of nation building large.
9) Develop a sense of non-negotiable respect for intellectual property rights and observe ethics in research publication.
10) Be aware of sustainability issues underpinning environment protection.
11) Know the culture and the market of various economies.
12) Develop a temperament for tryst with unfolding dynamics of future.
